

Name: Mutangana Joseph ID: 29061

Linux Administrator Course

Assignment#1 Report

Task 1: Environment Setup

Ubuntu OS was installed using virtual box as virtual machine, it has 4GB of RAM, 2CPU cores and 25GB of disk storage

Figure 1: VM Configuration

Figure 2: OS Version / Release

Below is the OS version and release of Ubuntu OS I installed as virtual machine

```
mutangana@linux:~$ cat /etc/os-release
PRETTY_NAME="Ubuntu 22.04.5 LTS"
NAME="Ubuntu"
VERSION_ID="22.04"
VERSION="22.04.5 LTS (Jammy Jellyfish)"
VERSION_CODENAME=jammy
ID=ubuntu
ID_LIKE=debian
HOME_URL="https://www.ubuntu.com/"
SUPPORT_URL="https://help.ubuntu.com/"
BUG_REPORT_URL="https://bugs.launchpad.net/ubuntu/"
PRIVACY_POLICY_URL="https://www.ubuntu.com/legal/terms-and-policies/privacy-policy"
UBUNTU_CODENAME=jammy
```

Task 2: Create Dedicated Student Account

```
sudo useradd --badname 29061
```

The command above used to force linux to accept bad username like 29061

Figure 3: whoami output

```
29061@linux: ~$ whoami
29061
29061@linux: ~$
```

Task 3: Terminal Customization

Terminal was customized to show the date and time in terminal and when command executed the terminal show current time and date beside username and hostname displayed on terminal.

Figure 4: Customized terminal output

```
(29061-@linux [2026-09-18 09:45:46])-[~] > whoami
29061
(29061-@linux [2026-09-18 09:46:07])-[~] > █
```

Task 4: Command practice screen-recorded videos demonstration

The screen-recorded videos were uploaded on google drive, use the link below to access the videos.

https://drive.google.com/drive/folders/1sP0LSWD5WmOLfI7u7xqHvQFOjcoCa5bu?usp=drive_link

Task 5: Shell script

The script I created is called semester directory generator (SDS). Why this SDS, because I have been creating same folders every semester manual, example, if I'm semester 5 I create sem-5 inside that directory I create sub directories of courses I'm going to be learning in certain semester, and inside of them, each course, has folders like, notes, assignments, solutions, revisions, something like that.

As you can see, there was repeatedly subdirectories creation in each course directory. With this SDS, I can run it and prompt me to enter the name of the semester I'm going to create directory for, and it ask me how many courses am I taking in that semester, then it loops through that number asking me the name of course I'm having and after it create default directories such notes, assignment in each course directory.
